# AlpBioEco in a nutshell

- April 2018 – April 2021
- 13 partners
- 5 Alpine Countries
- AlpBioEco's aim → Investigating the untapped potential of bioeconomy in the value chains of **walnuts, apples and herbs**

# AlpBioEco in a nutshell

> We analyse bioeconomic value chains in the Alpine Space. Our three examples are apples, walnuts and herbs.

> We develop innovative bioeconomic business concepts in cooperation with various stakeholders, such as enterprises and research institutions.

> We verify and further develop the business concepts in pilot studies.

> We develop economic and politic guidelines for the transregional adaptability of our results.

# AlpBioEco: The 7 business models

- Gluten-free apple flour
- Biodegradable packaging and Disposable tableware

- Walnut flips
- Walnut spread

- Herbal pacifier
- Alpine hay seeds

+ Digital service platform

# AlpBioEco: Results

- 1) Better connection in the Alpine Space → Creation of a transregional network of players
- 2) Concrete impact on local farmers
- 3) Awareness raising on potential of bioeconomy in the Alpine regions

# AlpBioEco: Finalist in the RegioStars Awards 2021
